### **Abbey**

Hello Kathy, I haven't checked in for a awhile but wanted to give you an update. I renamed her Abbey but she used to be Tammy. I adopted her in June 2015. She's going strong!! She has mast cell tumors and has had two surgeries. She is casted in this pic following a local procedure two weeks ago. She's strong willed, determined and healthy otherwise. She is also very spoiled, but I can't help myself. Just wanted to let you know we're a great match and thank you.
